SERIES 500

STANDARD KEY FEATURES

The Series 500 is made of the best quality components, meeting commercial standards at a value oriented price. Compare the following:

Pre-Painted

All doors and frames are baked-on primer paint, meeting ANSI A250 Standards. Tested for salt spray, humidity, abrasion, and adhesion.

Doors

18 gauge galvanized (A40), polyurethane core, square edge. Flush mounted top channel. Doors meet commercial Steel Door Institute (SDI) standards.

Frames

16 gauge galvanized (A40), 5 3/4" frame depth with 2" x 2" header and 4" x 1 3/4" subframe header. Frames meet commercial Steel Door Institute (SDI) standards.

Locks

Falcon Grade 2 W511-626-Dane. Thru bolted for strength. Free wheeling vandal resistant lever. Ten-year warranty.

Subjamb

16 gauge subjamb replace the need for a framed opening. Full 7'2" in height and can be modified to fit

various wall conditions.

12 gauge adjustable clips to attach to the girt and floor.

Hinges

Ball bearing silver powder-coated hinges with security non-removable pins.

Other

Full 5 3/4" aluminum threshold, dual finger TPE sweep, and urethane weatherstrip for kerfless type application. All components meet commercial standards and ADA requirements.

WARRANTY

Series 500 doors have a complete three-year warranty minimum on all standard components.
